Animal Feed Science and Technology, 42 (1993) 344–345
Elsevier Science Publishers B.V., Amsterdam

Contents of *Animal Feed Science and Technology*, Volume 42

VOL. 42 NOS. 1–2 JUNE 1993

In vitro solubility and degradability of nitrogen in concentrate ruminant feeds
P. Susmel, C.R. Mills, M. Colitti and B. Stefanon (Udine, Italy) 1
Ileal and faecal digestibility of light- or dark-coloured peas (*Pisum sativum*) in growing pigs
M. Abrahamsson, H. Graham, Y. Dandanell Daveby and P. Åman (Uppsala, Sweden) 15
Substitution effects of feeding rolled barley grain to grazing dairy cows
Y. Opatpatanakit, R.C. Kellaway and I.J. Lean (Camden, N.S.W., Australia) 25
The potential of dilute-acid hydrolysis as a treatment for improving the nutritional quality of industrial lignocellulosic by-products
F.B. Castro, P.M. Hotten and E.R. Ørskov (Aberdeen, UK) 39
Effects of dilute-acid hydrolysis treatment on the physico-chemical features and bio-utilization of wheat straw
F.B. Castro, P.M. Hotten and E.R. Ørskov (Aberdeen, UK) 55
Degradation of wheat straw and maize stem by a monocentric and a polycentric rumen fungi, alone or in association with rumen cellulolytic bacteria
V. Roger, A. Bernalier, E. Grenet, G. Fonty, J. Jamot and P. Gouet (Saint-Genès-Champanelle, France) 69
Ileal and faecal digestibility in piglets of field beans (*Vicia faba* L.) varying in tannin content
A.J.M. Jansman, J. Huisman and A.F.B. van der Poel (Wageningen, Netherlands) 83
The digestibility and energy value of badly preserved grass silages
D.I. Givens, A.R. Moss and A.H. Adamson (Stratford on Avon, UK) 97
Evaluation of alfalfa type as a roughage source in feedlot adaptation and finishing diets containing different corn types
T.L. Mader (Concord, NE, USA), G.L. Poppert and R.A. Stock (Lincoln, NE, USA) 109
In vitro digestibility studies of some local and high yielding varieties of rice straw (*Oryza sativa*)
M. Shahjahan, M. Mosihuzzaman and A.J. Mian (Dhaka, Bangladesh) 121
Digestible, metabolizable and net energy values of 13 feedstuffs for growing pigs: effect of energy system
J. Noblet, H. Fortune, C. Dupire and S. Dubois (St Gilles, France) 131
Measurement of the rate of passage in restricted-fed rabbits: effect of dietary cell wall level on the transit of fibre particles of different sizes
T. Gidenne (Castanet-Tolosan, France) 151
Nutritional and toxicological evaluation on rats of earthworm *(Eisenia fetida)* meal as protein source for animal feed
I.A. Ibáñez, C.A. Herrera, L.A. Velásquez (Santiago, Chile) and P. Hebel (Chillán, Chile) .. 165

Erratum 173

Announcement from the Publisher 175

VOL. 42 NOS. 3–4 **JULY 1993**

Effects of pectin supplementation on the digestion of different structural carbohydrate fractions and on bacterial nitrogen turnover in the hindgut of adult sows
D.A. Roth-Maier (Freising, Germany), A. Machmüller, M. Kreuzer (Vechta, Germany) and M. Kirchgessner (Freising, Germany) 177

The contributions of bacteria and protozoa to ruminal forage fermentation in vitro, as determined by microbial gas production
Hidayat, K. Hillman, C.J. Newbold and C.S. Stewart (Aberdeen, UK) 193

The true digestibility and biological value for rats of undegraded dietary nitrogen in feeds for ruminants
A.S. Chaudhry and A.J.F. Webster (Langford, UK) 209

Digestible and metabolizable energy values of ten feed ingredients in growing pigs fed ad libitum and sows fed at maintenance level; comparative contribution of the hindgut
X.S. Shi and J. Noblet (St Gilles, France) 223

Effect of dietary starch origin on digestion in the rabbit. 1. Digestibility measurements from weaning to slaughter
T. Gidenne and J.M. Perez (Castanet-Tolosan, France) 237

Effect of dietary starch origin on digestion in the rabbit. 2. Starch hydrolysis in the small intestine, cell wall degradation and rate of passage measurements
T. Gidenne and J.M. Perez (Castanet-Tolosan, France) 249

Effect of supplementary feeding on grazing behaviour of Comisana ewes in a Mediterranean semi-extensive production system
G. D'Urso, M. Avondo and L. Biondi (Catania, Italy) 259

Effect of a commercial enzyme preparation on alfalfa silage fermentation and protein degradability
A.N. Hristov (Kostinbrod, Bulgaria) 273

The degradation and utilization of structural polysaccharides of sorghum straw by defined ruminal bacteria
D. Ben-Ghedalia, J. Miron and R. Solomon (Bet Dagan, Israel) 283

Comparison of ileorectal anastomosis and the conventional method for the measurement of ileal digestibility of protein sources and mixed diets in growing pigs
Y.-L. Yin, R.-L. Huang and H.-Y. Zhong (Changsha, People's Republic of China) 297

Effect of alfalfa and corn moisture level on whole corn mastication
T.L. Mader, G.L. Poppert (Concord, NE, USA) and R.A. Stock (Lincoln, NE, USA) 309

Influence of the addition of fish meal to diets of roughage or roughage and concentrate on the consumption and live-weight gain of growing cattle
J. Combellas, F. Priore, J. Peralta and O. Zavarce (Maracay, Venezuela) 319

Book Reviews
In Vitro Digestion for Pigs and Poultry 333
Grass Evolution and Domestication 334
Nutrition for Feed Manufacturers 335
